- ✓ Monoclonal Antibody
- ✓ Recombinant Antibody

WB & IHC & IF Applications

Ensure effectiveness in WB,
IHC and IF applications

High Consistency

Compare batches one by
one to ensure the consi-
stency

High Specificity

Avoid non-specific
staining and protein
localization errors

High Affinity

Avoid no signal caused
by antibodies

Recommended Dilution

Provide recommended
antibody dilution based
on internal test data

Direct Labeling Primary Antibodies

Reduce background
signal interference
