Cytoskeleton's Product Summary Highlights

Fluorescent Actin Proteins (Cat # CS-APHR, CS-AR05, CS-AR06, CS-AR07)

Cytoskeleton Inc. offers several fluorescently-labeled purified actin proteins including the new HiLyte™488 actin and HiLyte™555 actins. The expanded offering will provide more versatility for researchers while complementing our existing labeled actin tools that are used in an array of applications including labeling F-actin barbed ends with rhodamine actin.

Fluorescent Tubulin Products

(Cat # CS-TL440M, CS-TL488M, CS-TL590M, CS-TL620M, CS-TL670M)

Since 1993 Cytoskeleton has provided purified tubulin proteins to the scientific community. We continually strive to provide the purest, most biological active and relevant tubulin proteins, kits and reagents for today's researchers. The fluorescent tubulin proteins in the link below are useful for monitoring microtubule dynamics in living cells.

- Highly Pure
- Biologically Active
- Highly Validated and Published
