FREE

**Same Kind & Size
Antibody Conjugates**

Epigentek® is pleased to present a **“Buy One, Get One Free*”** offer on our antibody conjugates.

When you purchase an antibody conjugate, you'll get a second one of the same kind & size (same cat#) free automatically.

While supplies last. No code is necessary.

**Excludes unconjugated, secondary, tag, and panel pack antibodies*

Epigentek® offers a large selection of primary antibodies that each have a **Biotin, FITC, and HRP** conjugate, allowing the researcher to directly detect a target antigen without having to use a secondary antibody. Our antibody conjugates are tested and validated in their applications to help you generate clean, reproducible results that you can trust. Plus, our **6-month application guarantee** allows you to try any of our antibodies with no risk.
